 Cornell University’s New York State Agricultural Experiment Station in Geneva, New York offers a Summer Research Scholars Program where undergraduate students can participate in exciting projects within one of four disciplines including Plant Pathology and Plant-Microbe Biology, Entomology, Food Science and Horticulture.

The student interns will have the opportunity to work with faculty, their graduate students and post docs on research projects that can be laboratory or field-based.

The internship is for 9 weeks beginning May 31, 2017 (May 30th for travel) through July 28, 2017 (July 29th for travel), and provides a stipend of $4,500, housing, and assistance with transportation costs.

Details may be found at http://www.scholars.pppmb.cals.cornell.edu/
